

NEXT GreenSeeker^{PACKAGE}

Special rent offering for N-fertilization 2020.

Rent now
and get our
special rate

Special times require special activities. To provide you with optimum support during these times, we are offering you the NEXT GreenSeeker for best rental conditions.

10 reasons for NEXT GreenSeeker^{PACKAGE}

- › Optimisation of the distribution of fertiliser and growth regulators with site-specific application
- › Reduces costs and protects the environment
- › Implement your field-specific strategy:
You determine the material, the maximum and minimum amounts of applied products
- › Can also be used during early development stages
- › For rapeseed: Calculation of nutrient requirements by mapping before vegetative rest
- › Highest measuring accuracy due to vertical measurement with only a small distance to the plant
- › Easy change of the system between different carrier vehicles: Within the own fleet or for inter-company flexibility
- › Interfaces to all fertiliser spreaders, sprayers or other application technology controlled by terminals
- › Full compatibility with crossvendor connection to the onboard computer via ISOBUS
- › Active system with its own light source

Start on May 1st 2020 and use NEXT GreenSeeker for your second and third N-fertilization in the cereal or for scanning your rapeseed in autumn.

You will be amazed.
